DUSTBIN & DUSTPAN

FDP 286

A lot goes into making dustpans that perform well every time. There is the pan tip that needs to be as thin as possible to improve dust collection from brooms, while not being too thin that it would easily break off. There is also the stackable form of our dustpans, in case you need that feature. And not forgetting the four pleasing colors to choose from.

CLOTH HANGER

FCH 2257

Because our clothes are not generic, neither should our hangers be. The FCH 2257 is purposefully built from decades of improvements. The shoulders allow for easy removal of clothes. Some can even extend to cater to wider shirts like the FCH 2272. Hooks are not exposed so they won't tug at your collars all the time.

BIN

STORAGE BOX

FRS 537

Not all spaces at home have pointed corners. There are occasional odd-shaped areas every now and then. That is why we created the FRS 537 to fit into odd spaces. It is a cylindrical-shaped bin with a helpful handle and convenient top lid. Comes in four brilliant colors, too.

FSB 133

Classic and essential. There is a saying that we don't fix what isn't broken, we make more of it. This traditional flat pack storage box has a top lid and two clasps to hold them together. The little wells on four corners of the lid gives way for our range of storage boxes with wheels.
